CAUTION

The coolbox has to be placed securely in the car in such a way, that in case of emergency stop, it cannot be dislodged and spin into the passenger area.

ATTENTION

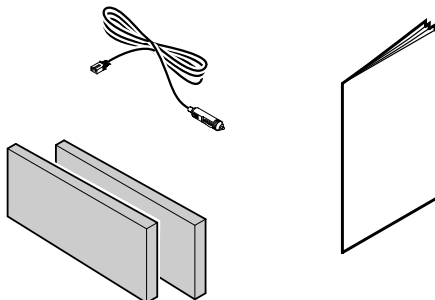

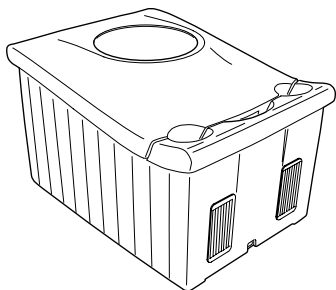

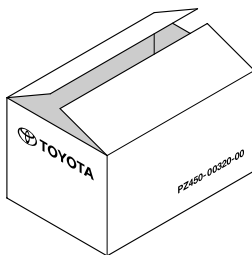

Le réfrigérateur doit être installé dans le véhicule de façon à ce que lors d'un freinage brusque, l'appareil ne puisse faire une embardée dans l'habitacle.

ACHTUNG

Die Kühlbox muß so sicher im Fahrzeug untergebracht werden, daß sie auch bei Nothalt nicht in den Fahrzeuginnenraum geschleudert werden kann.

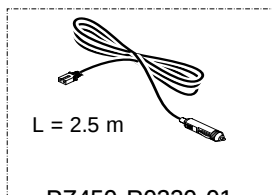

ATTENTIE

De box moet dusdanig in het voertuig geplaatst worden, zodat deze bij bruusk remmen niet door de passagiersruimte geslingerd kan worden.
